

2016 August Flood LDEQ Incident Command Incident Action Plan (IAP)

A picture provided by Kurt Reaux Construction, LLC shows a flooded area of Youngsville, LA, on Aug. 14, 2016.

Operational Period: **Starting: 08:00 / 22 Aug 16**
 Ending: 08:00 / 23 Aug 16

Single Point of Contact (SPOC)	225-219-3640
Hotline Numbers	
DEQ EPA NRC Louisiana State Police (LSP)	888-763-5424 866-EPA-SPIL 800-424-8802 225-925-6595

1. Incident Name 2016 August Flood	2. Operational Period Date / Time From: 08/22/2016 / 08:00 To: 08/23/2016 / 08:00	INCIDENT OBJECTIVES ICS 202				
3. Incident Objective(s) 1. Ensure health and safety of responders and the public by conducting operations in accordance with the approved site safety plan. 2. Monitor debris activities at landfills 3. Continue to respond to complaints/concerns from citizens						
4. Operational Period Command Emphasis (Priorities, Key Decisions for Operational Period) 1. Complete detailed 214s as required, but it is not necessary to submit them to IC at the end of every day. 2. Develop plan for appropriate ICP staff; evaluate and provide appropriate "right sizing" of the organization to correlate with operational needs. 3. Reaching out to FEMA/ EPA for assistance with household hazardous waste, white goods, and orphan containers. 4. Do not put any photographs of flooding and damage on <u>ANY</u> type of social media. 5. The Incident Command main phone number is (225) 219-1221						
5. Weather Forecast Baton Rouge Area: Monday, August 22 - 50% chance of scattered thunderstorms High temp 90 Tuesday, August 21 - 50% chance of scattered thunderstorms High temp 92						
6. Safety Objectives 1. Staph infections – due to recent outbreak of severe bacterial infections, all persistent rashes and/or swelling around cuts/abrasions must be reported to the Site Safety Officer. 2. Driving – Be aware of when driving since contractors are coming here to work from other states that are not familiar with Louisiana area roadways. Also be aware that in many areas, red lights are not functioning. Please use appropriate caution when approaching an intersection where this is the case. 3. Road Hazards - Trucks are loaded with debris and may not have the appropriate covering to prevent falling out during transport. Be alert, keep your distances, follow the laws, and drive safely. 4. Debris Hazards - Use a tool first when disturbing debris or overturning containers, and never use your hands. If needed, wear snake chaps during any operation with the potential to encounter snakes. If bitten or stung, seek medical assistance immediately, even if you're certain it wasn't a poisonous species. 5. Reporting Injuries – it is very crucial to report all injuries to your Supervisor or Safety Officer.

IAP SAFETY ANALYSIS	ICS 215a
----------------------------	-----------------

The Department is transitioning from search & rescue mode to recovery. During the current operational period the focus will be on Rapid Needs Assessment (RNA), water reconnaissance, and telephone notifications. Personnel operating in the field should be aware of ongoing high water risks in many areas. Also, the potential exists for contact with dangerous wildlife (poisonous snakes, alligators, fire ants, etc.) Typical afternoon thunderstorms have the potential for frequent cloud to ground lighting, seek shelter with approaching storms. All staff has Stop Work Authority if the work situation presents unnecessary or undue hazards. As always, report all injuries to the Safety Officer.
